FPPS is a major application that consists of several minor applications to include time and attendance applications, a system for creating retirement cards and updating retirement records, a system for converting client data for integration into FPPS. The purpose of this system is to ensure proper payment of salary and benefits to EXIM personnel, and to track time worked, leave, or other absences for reporting and compliance purposes. Use of this system will streamline EXIM Bank's personnel, payroll and other human resources functions into a unified, secure system, thereby improving employee input into these systems while enhancing data integrity and security and improving operational efficiency.

9. ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures that are generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed to authorized entities determined to be relevant and necessary outside EXIM Bank as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

10. STORAGE:

Data will be stored electronically by IBC. Data is protected by the following electronic security systems: Password, Firewall, Encryption, User ID, Intrusion Detection System, Virtual Private Network (VPN), Public Key Infrastructure (PKI) Certificates, Personal Identity Verification (PIV) Card.

11. RETRIEVABILITY:

FPPS authorized users, including EXIM authorized Human Capital personnel, may retrieve information on an individual using full name, SSN and Employee Common Identifier (ECI). Certain personnel within EXIM and IBC, involved in operations and maintenance of FPPS payroll operations, can retrieve information on an individual using:

- ECI - unique number identifying employees across Federal automated systems
- SSN and full name
- Person Number - unique number which identifies a person within FPPS
- Person Number-Emergency - unique number identifying an individual within FPPS for a leave share occurrence
- Person Number-Volunteer - unique number identifying an individual within the FPPS volunteer database
- Taxpayer Identification Number (TIN) - unique number identifying a trustee for the estate of a deceased employee

Additionally, reports can be produced on an individual containing many of the data elements in FPPS. FPPS also routinely generates a variety of reports related to employment that are required by law, such as Internal Revenue Service (IRS) forms (1099- MISC and W-2); reports of withholdings and contributions for benefits and union dues; and reports on individuals who are delinquent on child-support payments. Access to the reports is limited to employees who process or file the reports and individuals who are granted access on a need-to-know basis. Copies of the reports may also be provided to government entities as required by law, such as tax forms to the IRS.

12. SAFEGUARDS:

Information about individuals whose data is in FPPS cannot be retrieved without knowing specific information about the employee. FPPS supports a full suite of human resources functions, including calculating payroll. The data in FPPS is necessary to perform those functions and to comply with related Federal laws and regulations. To prevent misuse, (e.g., unauthorized browsing) EXIM Bank signed a Service Level Agreement (SLA) with the IBC to clearly establish and document IBC and client security roles and responsibilities. Most of the employee data in FPPS is collected from individuals and entered into FPPS by an authorized Federal human resources professional with access to the system.

The FPPS system has undergone a formal Security Authorization and Accreditation and has been granted an authority to operate by DOI in accordance with FISMA and NIST standards. FPPS is rated as FISMA moderate based upon the type of data, and it requires strict security and privacy controls to protect the confidentiality, integrity, and availability of the sensitive PII contained in the system.

13. RETENTION AND DISPOSAL:

Both EXIM Bank and IBC maintain records as needed under NARA approved records schedules for the retention of reports and data. Specifically, General Records Schedule (GRS) 1, "Civilian Personnel Records" and GRS 2 "Payrolling and Pay Administration Records," would be applicable to the FPPS system.

EXIM Bank is responsible for purging employee data according to the records schedule after an employee's access authority is terminated or the employee retires, changes jobs, or dies. The IBC may purge or delete any customer payroll or personnel records if it is agreed upon in the Inter-Agency Agreement with the IBC.
